

Accessing Your Test Results

Due to the coronavirus (COVID-19) pandemic and our visitor restrictions, The Bellevue Hospital's Health Information Management (Medical Records) Department is currently closed to the public. The Bellevue Hospital realizes it is important to know your test results. Here are some options for accessing your results:

1. If you have access to TBH's patient portal, FollowMyHealth, you may find your test results this way. If you are already signed up for the portal, log in at:

<https://bellevuehospital.followmyhealth.com>.

If you are not signed up for the patient portal, follow the directions in this brochure to set up your account.

2. Wait for your physician to contact you with the results.

Turnaround times vary depending on the test.

Please note: Turnaround times for COVID-19 test results may take one to two days.

3. Although Health Information Management (Medical

Records) is currently closed to in-person visits, you can call 419.483.4040, Ext. 4212 or email records@bellevuehospital.com for release of your medical records.

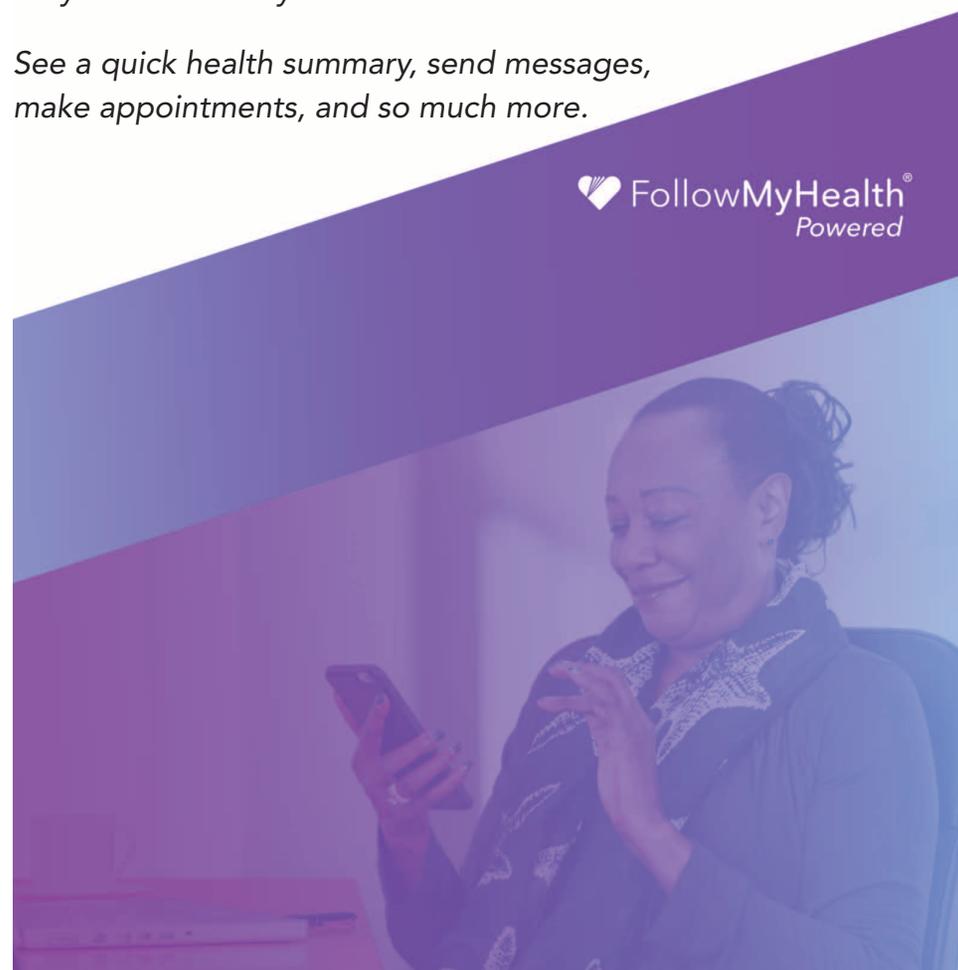

Thank you for choosing The Bellevue Hospital for your healthcare needs.
